CRITERIA FOR THE „TOP BIGGEST SKI RESORTS IN 10 EUROPEAN COUNTRIES” RANKINGS

1. **The ranking includes the largest ski resorts, in terms of the length of ski runs counted in kilometers.** The results of the ranking have been compiled taking into account the following principles:

a. **The runs in the resort are connected by a network of ski lifts** and do not require travel by bus or car.

b. **Only the groomed ski runs marked as blue, red and black are taken into account.** Ski touring and freeride routes are not included.

c. **If the length of the ski runs in the resorts is comparable, the parameter of elevation**, i.e. the difference in height between the highest and the lowest point on the runs in the resort, is also taken into account. The resort with the higher elevation has a higher ranking.

d. **The resort was open (most runs open) for more than 30 days in the 2022/23 ski season.**

e. If the resort is located on the border of two countries:

- The entire resort is included in the TOP 10 Europe ranking;
- Only the part of a resort that is located in a particular country is included in the TOP 10 Country ranking;
- Only the part of a resort that is located in a particular region is included in the TOP 10 Region ranking.

f. In the case of resorts situated on the border of two regions, only the part of a resort that is located in a region (the region where the majority of the resort is situated) is taken into account.

g. **Each of the ten countries was divided into Ski Regions with the highest number of ski resorts and ski runs.** If a country has a small area or less than 3 ski regions meeting the minimum criteria, then the whole country is regarded as one Ski Region, e.g. Slovenia, or is combined with a neighboring country like Andorra, added as an Andorra Ski Region of Spain.

2. The compilation covers 10 European countries: **Austria, Czech Republic, France, Germany, Italy, Poland, Slovakia, Slovenia, Spain, Switzerland.**

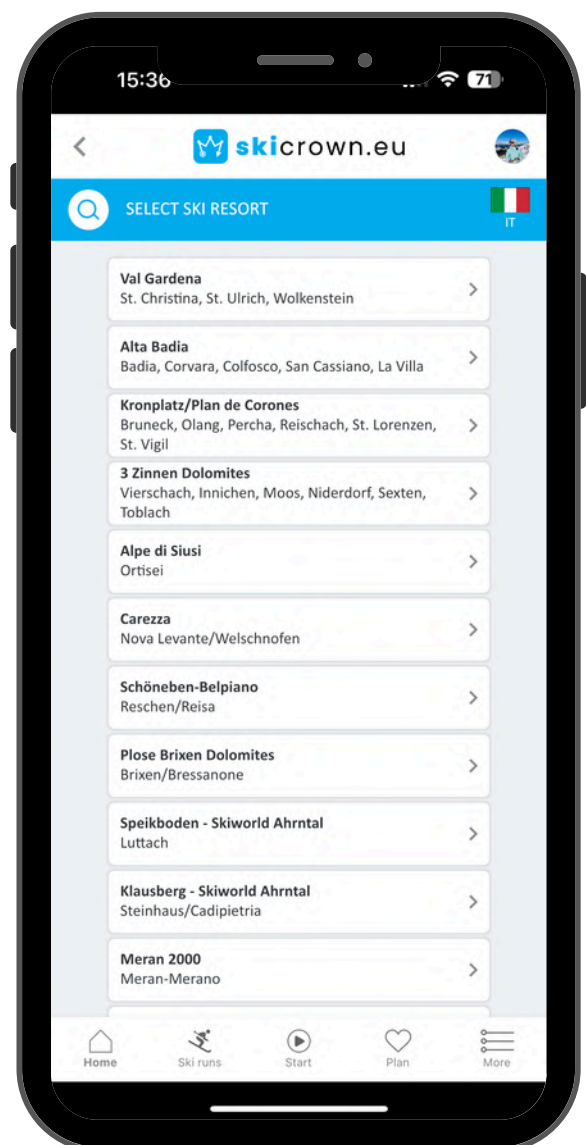

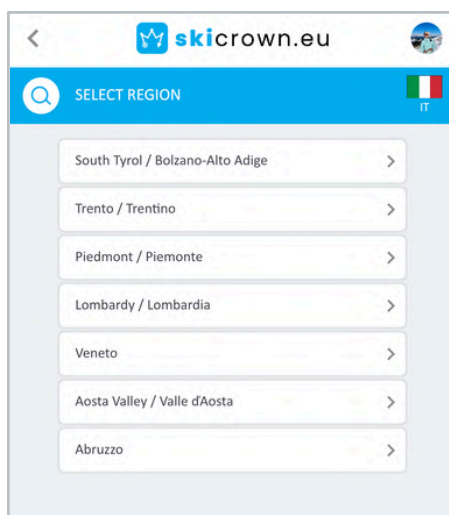

3. TOP 10 BIGGEST SKI RESORTS IN EUROPE ranking - a list of the ten largest ski resorts in terms of the number of kilometers of ski runs in Europe.
